Presentation	10 Marks	Your Marks
Inclusion of a title page with acknowledgement	**3 marks**	
Inclusion of 'table of contents' and page numbers	**2 marks**	
Inclusion of bibliography or justification for not having one	**2 marks**	
Overall organisation and clarity of presentation	**3 marks**	
Subtotal		**??**

ER diagram	60 Marks	Your Marks
Correct identification of all the entities. Entity names should follow the standard conventions, i.e., they should be singular nouns and written in CAPITAL letters, or at least the first letter is CAPITAL. No unnecessary entities.	**12 marks**	
Correct identification of all the attributes for each of the entities	**12 marks**	
Correct identification of all the relationships with appropriate cardinality and modality. If the cardinality and/or modality are not clear from the assignment specification, the assumptions made should be clearly stated.	**12 marks**	
Introduction of composite/bridge entity to represent many-to-many relationships.	**14 marks**	
Correct representation of strong and weak relationships (using solid and dashed relationship lines)	**5 marks**	
Correct identification of all the primary keys and foreign keys. The primary keys should be underlined, and foreign keys should be italic.	**5 marks**	
Subtotal		**??**

Normalisation	30 Marks	Your Marks
Converting each entity in the ERD into a relation schema	**5**	
Inclusion of a dependency diagram or all functional dependencies for each entity. The primary keys should be underlined, foreign keys need to be italic, and the arrows should correctly show the dependencies.	**15**	
The tables should be at least in 3NF. Deduct 2 marks if a table is not in 3NF and appropriate justification is not provided.	**10**
